City Performance Stats can be Reviewed Online

Residents can get a better understanding of how their tax dollars are being spent by logging on to a new web application that lets citizens review the progress City departments are making toward their goals.

The data can be found on the Finance page of the City's website at www.okc.gov/finance and includes performance measures for 19 City departments.

Neighborhood Alliance will Survey all Neighborhoods!

Thanks to a grant from the Oklahoma City Community Foundation Neighborhood Alliance will be purchasing a new software program that will enable us to keep better track of neighborhood data. Ashley Dickson, the newest employee of Neighborhood Alliance, will soon be contacting each neighborhood to get updated information for this new computer program. Please watch for the survey and fill it out as quickly as you can.

We appreciate all you do for this City and we want to do our part by keeping accurate records. For more information on the survey contact Ashely at Ashely@nacok.org
